# Terms and General Conditions of Delivery

Prices quoted in this list go into effect immediately for spot sales and 1953 crop contracts, superseding all previous quotations. All orders of 4 ounces or over will be charged at the pound rate; all orders under 4 ounces will be charged at the ounce rate.

The minimum charge for each item billed will be twenty-five cents, due to the increased cost of handling small orders.

All seeds are quoted F.O.B. El Monte, California, terms 60 days net, less 1% cash 30 days. All invoices payable in U. S. dollars in or by New York or Los Angeles Exchange. All overdue accounts subject to sight draft without further notice.

Bags and containers will be charged at cost and are not returnable.

We reserve the right to change any or all prices in this list without notice.

In case of crop shortages, orders will be filled pro rata only.

Crop failure or any cause beyond our control releases us entirely from delivery.

"We give no warranty, express or implied, as to the productivity of any seeds or bulbs we sell and we will not be in any way responsible for the crop. Our liability, in all instances, is limited to the purchase price of the seed."

Should fulfillment of any order or contract be prevented or delayed by the act of God, war, blockade, revolution, prohibition of exports or imports, riots, strikes, lockouts, fires, loss and/or detention at sea or any other contingency beyond our control, we shall not be responsible for any loss and/or damage thereby.

## *extra* MAY WE BE OF <sup>A</sup> SERVICE?

**PHOTOGRAPHS:** We can supply, at cost price to us, professional quality photos of (1) all varieties of which we offer seed, (2) most varieties we have listed in recent years, and (3) certain subjects we do not normally grow; usually several poses of each subject. All photos are 8"x10" contact, single weight glossy paper. Each \$1.00

**COLOR PHOTOGRAPHS:** We can supply dye-transfer color photos equal in quality to the above but in full color. 8"x10", projected from professional-size Kodachromes onto double weight semi-matte paper. Mounted between white artist's board, 11"x14". All color prints are supplied mounted unless requested otherwise. Selection limited only by our library of Kodachromes. . . . . Each \$8.00

We can make color prints from your Kodachrome provided it is in correct color balance. Write for quotations. Special prices quoted on quantities of color prints, your Kodachrome or ours. Also on sizes other than 8"x10" in quantity.

**KODACHROME SLIDES:** We can supply high-fidelity 35mm slides (2" x 2") of any subject listed under "Color Photographs." These are close-ups of individual flowers or groups, projected from our professional-size originals. . . . . Each \$ .50

**COLOR TRANSPARENCIES:** Regular photos made on Translite film and hand colored to precision accuracy. We can supply all subjects listed in first paragraph. Should be displayed with a light (daylight type or fluorescent) behind them. Chosen from a sample

(Continued on next page)

MAY WE BE OF EXTRA SERVICE?

selection of black-and-white photos, as color transparencies are MADE UP TO ORDER ONLY. Please allow ten days for completion of your order. 8"x10" contact.....Each \$8.00

**R.H.S. HORTICULTURAL CHART:** The numbers in italics following Sweet Pea descriptions refer to color blocks in the R.H.S. Chart, the most complete ever compiled for horticultural uses. Obtainable from us or from the Royal Horticultural Society direct.

Full sets (2 volumes) only.....\$12.00 set

**ELECTROS:** We can supply electrotypes for use in printed matter of a great number of the pictures offered above. 120 screen, usually square finish. Chosen from our Electro Catalog, our seed catalogs, or a selection of photos, and MADE UP TO ORDER ONLY. Allow ten days for completion of your order. Prices below apply to copper, wax mold. For nickelsteel, add 25%.

**COLOR PLATES:** We have a large selection of color plates available. 133 screen, square finish, wax mold nickelsteel. Chosen from our Electro Catalog, our seed catalogs, or proofs submitted, and MADE UP TO ORDER ONLY. Allow ten days for completion of your order.

ELECTROS AND COLOR PLATES ARE SUPPLIED UNMOUNTED (PATENT BASE) UNLESS MOUNTING IS SPECIFICALLY REQUESTED. THERE IS AN ADDITIONAL CHARGE OF 25% FOR MOUNTING. LEAD MOLD OPTIONAL, 25% EXTRA. If we do not have an electro the size you need, you can purchase a photo and have your printer make a cut for you. Electro Catalog available free.

ELECTRO PRICES ARE AS FOLLOWS:

Note: OUR ELECTRO PRICES DIRECTLY REFLECT THE STANDARD ELECTROTYPYER'S SCALE IN LOS ANGELES, WHICH IN TURN REFLECTS THE HIGH WAGES NOW PAID IN THE ENGRAVING INDUSTRY. WE CANNOT CONTROL THIS. BEFORE ORDERING, CONSULT YOUR PRINTER. IN SOME LOCALITIES HE MAY BE ABLE TO HAVE ENGRAVINGS MADE AT LOWER COST THAN OUR PRICES.

## THE STORY OF BODGER'S WILT-RESISTANT ASTERS

For hundreds of years horticulturists have developed the China Aster until it is one of the most colorful of the late summer annuals. About twenty years ago, however, the disease Aster Wilt became so widespread that it threatened the very existence of the Aster family. The problem was this: Wilt is caused by the fungus *Fusarium conglutinans* var. *Callistephi*, which lives in the soil. It may be spread by tools, water, seed—and it persists almost indefinitely. It may be avoided by using soil that has never grown Asters before, but this course is usually impractical. There is at present no drug or chemical which will destroy it. How, then, is Aster Wilt conquered?

The process developed by Bodger Seeds Ltd. in its pioneer work is much like vaccination in human beings: Plants are exposed to the Wilt and those which survive supply seed for the next generation of test plants. This work is carried on in the Wilt Workshop, a twenty-acre farm staffed by Bodger experts which is devoted solely to wilt work and is purposely infected with as much wilt as possible.

The tendency to wilt-resistance can be inherited, so the plants grown from the seed produced the previous year are quite resistant—but the process does not stop there. Many successive generations are grown in the Workshop until the best lines have great resistance. By means of this technique—survival of the fittest—Bodger's original strains of wilt-resistant Asters were developed.

In all cases it is **resistance**, not **immunity**, which is developed. The tendency toward resistance is inherited, and will "breed out" if the strain is not put through the Workshop cycle periodically. All Bodger Aster introductions are developed in the Workshop, and each year's stock seed comes directly from a two-generation exposure to wilt of a virulence not found in ordinary soil. Your Bodger Aster seed is highly resistant. Even a few generations of increase in non- or lightly-infected soil will produce seed of decidedly less resistance.

Resistance is hereditary, and so are plant and flower types. Bodger wilt-resistant strains are developed from non-resistant, **Commercial** varieties, quite true to type—not from crosses between commercial and inferior, though resistant, types. Because we take pride in maintaining this accuracy of type, some varieties are not offered as wilt-resistant. At present we cannot make these resistant without sacrificing essential qualities of type, and we do not recommend their use where wilt has been observed. Combining wilt-resistance with good commercial types is not easy; since there will always be some variation. Resistance is expressed as a percentage, a high value of which is required to qualify as "wilt-resistant."

The war against wilt is a continual one, complicated by bad weather breaks which sometimes wipe out a long chain of selection work. Among commercial growers, Bodger Seeds Ltd. is the pioneer in wilt work, and the only firm actively engaged in **continual** research. Your Bodger wilt-resistant Aster seed is of high quality, true to type, and as wilt-resistant as we can make it. Because of this research work, wilt is no longer a problem to the careful grower who makes sure he has resistant stock.

# Asters

All Asters listed here can be grown by the home gardener wherever Asters are popular. The non-resistant Giants require care to avoid wilt infested ground, but yield tremendous "show" blooms for the careful gardener. Most of these Asters are also in great demand as florist's commercial varieties, especially those marked "f". In any case, seed we offer is of highest florist quality.

## ASTER PRINCESS WILT RESISTANT (f) (Bodger)

An ideal type for florists. 3"-3½" flowers on long stems, have crested center that remains full when flower is completely open, surrounded by multiple rows of guard petals. An exceedingly good shipper. Fine for home gardeners because of high wilt resistance. Plants 2'-2½' tall, branching habit, blooms in late August.

## TALL, LARGE FLOWERED TYPES

(Elegans Robusta Grandiflora Plenissima)

### ZINNIA BODGER'S GOLD MEDAL DAHLIA FLOWERED (f) (Bodger)

(G.M. R.H.S. '24)

Introduced by us in 1919; all the colors of our introduction since then. Plants medium height, 2½'-3', bearing on strong stems huge fully double flowers resembling the show type of Dahlia. Most popular varieties marked with asterisk (\*).

		Per oz.	Per lb.
....1260	*CANARY BIRD, rich canary yellow.....	.75	6.00
....1262	*CRIMSON MONARCH, deep crimson, large..	.75	6.00
....1264	*DREAM, deep rosy lavender.....	.75	6.00
....1266	*ELDORADO, salmon apricot.....	.75	6.00
....1268	*EXQUISITE, light rose, deep rose center....	.75	6.00
....1272	*GOLDEN DAWN, golden yellow.....	.75	6.00
....1274	GOLDEN STATE, golden orange.....	.75	6.00
....1276	*ILLUMINATION, deep rose red.....	.75	6.00
....1280	LUMINOSA, bright pink.....	.75	6.00
....1282	METEOR, deep red.....	.75	6.00
....1288	*ORIOLE, orange and gold.....	.75	6.00
....1290	*POLAR BEAR, white.....	.75	6.00
....1292	PURPLE PRINCE, deep purple.....	.75	6.00
....1298	ROYAL PURPLE  '42, rich purple .....	.75	6.00
....1294	SCARLET FLAME, bright scarlet.....	.75	6.00
....1258	*WILL ROGERS, lovely deep scarlet.....	.75	6.00
....1306	GOLD MEDAL FINEST MIXED, special formula	.70	5.50

### ZINNIA SUPER CROWN O'GOLD (f) (Bodger)

....1330	PASTEL TINTS (Bodger). Vastly improved strain of the Crown O'Gold type, with large well-formed flowers in rich pastel shades, each petal overlaid at the base with deep golden yellow. Flower type intermediate between Dahlia Flowered and California Giant.....	.75	6.00
----------	---	-----	------

### ZINNIA BODGER'S CALIFORNIA GIANT or MAMMOTH (f) (Bodger)

Introduced by us in 1926; most of the colors are of our introduction since then. This class makes fine cut flowers, especially for florists, as they can be forced nicely in the greenhouse. Flowers large and flat with long stems, very graceful. Colors which do not occur also in the Dahlia Flowered class are marked with an asterisk (\*).

....1350	BRIGHTNESS, bright pink.....	.75	6.00
....1382	*CHERRY (CERISE) QUEEN, cherry rose.....	.75	6.00

....1464 SUNSHINE TINTS (Bodger), rich pastels, taller .75 6.00

....1466 FINEST MIXED..... .70 5.50

### **ZINNIA PEPPERMINT STICK (Striata)**

Medium-sized, Pumila type flowers borne on robust plants taller than Pumila. Flower petals are striped in various color combinations such as red and white, red and yellow, purple and white, carmine and white, orange and yellow. Approximately 70% striped flowers.

....1584 FINEST MIXED ..... 1.25 10.00

### **ZINNIA EARLY WONDER (f) (Bodger)**

Earliest of all Zinnias, for short season locations and Autumn planting. Plant 18"-24" tall, basal branching, many 3"-4" flowers on long wiry stems having no laterals and almost no leaves.

....1518 FINEST MIXED, bright Spanish colors..... 1.25 10.00

## DWARF, SMALL FLOWERED TYPES

### ZINNIA BODGER'S IMPROVED LILLIPUT (Pompon or Baby Zinnias) (f)

The Lilliputs are among the most popular Zinnias for cut flower use. Flowers are small, compact and symmetrical, on strong stemmed plants, 1½'-2' tall.

*Air Warden	Giant White	*Burpee's Best White
	*Gigantic	King White Impr.
	Kames	Ruffled White
	Mount Everest	Snowdon

---

R. H. S. HORTICULTURAL COLOR CHART: In various sections of this list we have added to the regular descriptions of a variety some numbers in italics. These refer to color blocks in the Color Chart which many of our customers have secured either from us (as U. S. distributors) or the Royal Horticultural Society direct. To see the precise color of a flower so described, turn to the page indicated and mask the proper block with the black mat provided. For example, Larkspur Gt. Imp. Los Angeles Improved is described as (623/1). Turn to page 623 and mask the block (623/1), which is the first tint of the full hue 623. We are gradually completing color registrations of all listed varieties in which exact color descriptions are vital. By means of this Chart, the most complete ever compiled, exact color descriptions may be sent by letter or wire, without recourse to paints, ambiguous names or other makeshifts. Applicable to other trades and uses, also, in which color standardization is desirable. Obtainable from us, in full sets (2 volumes) only—\$12.00/set.

# APPROXIMATE NUMBER OF SEEDS PER OUNCE

Abronia .....	2,300	Ipomea Scarlet O'Hara.....	700
Acroclinium .....	9,000	Kochia .....	50,000
